DEPARTMENT OF CRIMINAL JUSTICE AND POLICE STUDIES

Chair
Dr. Carole Garrison
 (859) 622-1978
 Stratton Building, Room 467

MASTER OF SCIENCE Criminal Justice

CIP Code: 43.0103

Criminal justice is viewed as an academic discipline. Objectives of the graduate program are based upon the assumption that social policy, decision-making, and reform in modern society require a broad academic experience, innovative thinking, including theoretical foundations of the discipline, appropriate research methods, and principles applicable to the administration of justice.

A major focus is to demonstrate that problems of both a public and private nature associated with crime and delinquency must be viewed as social problems rather than isolated problems. It is therefore expected that graduates will be:

1. conversant with the theoretical and legal principles implicit in criminal justice;
2. knowledgeable of the essential research contributions in the discipline;
3. capable of research and data analysis appropriate to the discipline; and
4. competent to assume policymaking, research and instructional responsibilities in criminal justice.

Special Program Requirements*

Admission — Students seeking clear admission should hold a baccalaureate degree from an accredited institution of higher learning with a 3.0 grade point average overall or in the last 60 hours of undergraduate course work and a combined score of 1250 on the general section of the Graduate Record Examination. All applicants must submit three letters of recommendation directly to the Criminal Justice Graduate Program Coordinator in the College of Justice and Safety. Students may be required to complete prerequisite course work. Introductory statistics and research methods are prerequisites for CRJ 808 and CRJ 888.
